## Fry's Run Watershed Association

2018 was a big year for FRWA. More than 100 people attended our stream side tour and plant sale in September. We have four new Master Watershed Stewards in the township who are available to answer questions you have about what you can do to help the watershed.

We were able to offer a little help to a young township resident, Chris Williams, with planning his Eagle Scout project at Fry's Run Park, although Chris didn't need much help. Chris installed stream side benches and a handicapped accessible path. Stop in and check it out.

Our invasive plant control program at the park is starting to show benefits. Unfortunately, we had a huge clean-up at the park after the flooding in August. We staked up 95 trees that were taken down and had to plant 30 replacements.

We're planning events now for 2019. We'll post info on our website ([frysrun.org](http://frysrun.org)) as soon as we finalize plans. We meet the first Tuesday every month, 7:00 pm at the Township community building. Everyone is welcome.

## Land Preservation Board

The Lehigh Valley Planning Commission estimates that natural areas save the Lehigh Valley roughly \$50.6 million every year in flood mitigation. After the floods of last year, we can all see how important that is. The township's land preservation program has protected more than 1300 acres of its natural resources.

We are currently working on three applications for preservation totaling an additional 130 acres. Our new county executive and council are very supportive of preservation and have reinstated funding after a short lapse. We will stretch the township's money by applying for county funds.

The LPB meets at the community building on the fourth Tuesday every month at 7:00. Everyone is welcome to attend.
