1/17/2025	9:19	unknown			28	East / Southeast 0-1 mph	Residence Every morning for the past year+ between the hours of roughly 7am-10 am and in early evening hours my neighborhood has overwhelming smell of methane gas. The belief is this odor is off gassing from the Chrin landfill. This has been a noticeable problem for the past year or so at least. I have acute asthma and suffer lung irritation and burning as a result of this when exercising or working outside during periods when the odor is level is high. I fear a toxic situation exists.			2300		2300	1/21/2025	1/21/2025
